

Early help councillor training: feedback form

Having attended the training session today...

Question	Scale 1-5: 1=not at all 5=to a great extent	Any comments?
Q1: To what extent do you now feel that you have a better understanding of what 'early help' is , and the council's approach to delivering it ?		
Q2: To what extent do you now consider the delivery of high-quality, evidence-based early help a higher priority for the council ?		
Q3: To what extent do you now feel better-equipped to ask council officers key questions on the council's early help offer (i.e. to act as a 'critical friend') ?		
Q4: To what extent do you now feel that you, other councillors and council officers have an improved sense of shared commitment to early help (as an approach) ?		
Q5: Do you have any other feedback on the training session? And is there anything else that EIF could do to support councillors' leadership of the early help agenda in their local areas?
